Our Approach

The Supply Chain Visions philosophy is to "teach a company to fish" rather than bring in herds of consultants costing thousands of dollars which generally wind up as "Vinyl Binder" studies that sit on a book shelf. Instead Supply Chain Visions works to "coach" client employees/teams through the projects they are tackling by embedding our consultants as part of the client team, serving an educational role as much as a consulting role. This unique approach leaves the client team better able to enact genuine and enduring change in the organization in support of strategic objectives.
